

EVACUATION

Leave now, escorting visitors and people with disabilities.

In a fire evacuation, do NOT carry objects.

In a bomb evacuation, carry out personal effects.

Proceed calmly in a group to your assembly area.

VIRTUAL REALITY WARDEN

TRAINING

Virtual Reality

Interactive - Engage in an environment with a realistic evacuation scenario

Fast Learning

Using the VR headset provides an intense undistracted interactive learning experience

Scores & Time

Records and evaluates performance and provides ranking data to assess learning outcomes

Team Event

An enjoyable training experience for the whole team. Up to twenty staff can VR Train at the same time

WHAT YOU WILL LEARN

- ▶ Understand the responsibilities of either a Warden or Floor Warden
- ▶ VR is used as a training tool as part of the new VR Warden Training by our trainers for the advance learning experience
- ▶ Identify the equipment that may be useful in an emergency situation
- ▶ Understand the principle of R.A.C.E.
- ▶ Walk through the role of a Warden or Floor Warden in a realistic emergency situation
- ▶ Report to other members of the Emergency Control Organisation

IMMERSE YOURSELF IN VR

Our innovative VR Training offers a new dimension to train your emergency procedures organisation.

Call us today so we can help prepare your people for emergencies.
